OBJECTIVE STATEMENT

Enthusiastic Web Developer with 2 months of experience in building dynamic web applications. Seeking to leverage my skills in PHP and MySQL to contribute to innovative projects and enhance user experiences.

EXPERIENCE AS INTERN WEB DEVELOPER

Job Portal Project Contribution

Techrays Labs pvt. lmt.

📅 07/2024 08/2024 📍 Ahmedabad

- As a Intern Web Developer, I took the initiative to independently design and develop a robust job portal aimed at connecting job seekers with employers. My comprehensive role encompassed both backend and frontend development, allowing me to refine my skills across the entire development stack.
- **End-to-End Development:** Spearheaded the complete development of the job portal, leveraging PHP for backend logic and MySQL for efficient data management. Utilized a modern tech stack, including HTML, CSS, JavaScript, jQuery, and Tailwind CSS, to create an intuitive and visually stunning user experience.
- **Dynamic Backend Solutions:** Engineered the backend architecture to support critical features such as user authentication, job postings, and application submissions. Developed secure and efficient server-side scripts, ensuring smooth data handling and seamless interactions.
- **Innovative Frontend Design:** Crafted a responsive and engaging frontend using HTML and Tailwind CSS, emphasizing usability and aesthetic appeal. Harnessed the power of JavaScript and jQuery to implement dynamic elements, enhancing user interactions with features like real- time form validations and dynamic content updates.
- **Database Optimization:** Designed a well-structured database schema in MySQL to efficiently manage user profiles, job listings, and application data. Wrote optimized SQL queries to ensure quick data retrieval and maintain data integrity across the platform.
- **Feature-Rich Functionality:** Implemented a variety of user-centric features, including advanced job search filters and personalized user profiles, enabling a tailored experience for both job seekers and employers.

Book Management Project Contribution

Techrays Labs pvt. lmt.

📅 07/2024 08/2024 📍 Ahmedabad

- Developed a comprehensive book management system that allows users to perform CRUD Create, Read, Update, Delete) operations, utilizing PHP, MySQL, HTML, CSS, and Bootstrap:
- **Full-Stack Development:** Built a user-friendly interface with HTML, CSS, and Bootstrap, ensuring responsive design and optimal usability.
- **CRUD Functionality:** Implemented robust CRUD operations in PHP, enabling users to easily manage book records.
- **Database Design:** Created a structured MySQL database to efficiently store and retrieve book information.
- **User Authentication:** Incorporated user authentication for secure access to the system.

EDUCATION

Bachelor of Computer Application

Maharaja Krishnakumarsinhji Bhavnagar University, Gujarat

📅 07/2021 07/2024 📍 Bhavnagar, Gujarat

- **Overview:** Completed a Bachelor of Computer Applications, focusing on software development, web technologies, and database management. This program provided a solid foundation in computer science principles and practical skills in programming.
- **Programming Languages:** C, C , Java, VB.NET, ASP.NET.
- **Web Development:** HTML, CSS, JavaScript, PHP, and frameworks like Bootstrap.
- **Database Management:** SQL and MySQL for data manipulation and management.
- **Software Engineering:** Understanding software development life cycles and methodologies.

TECHNICAL SKILLS

Programming Languages:

PHP	C	C++	Vb.Net	Asp.Net	Java

Web Technologies:

HTML	CSS	JQuery	Javascript

TECHNICAL SKILLS

Frameworks:

Laravel   **TailwindCss**   **Bootstrap**

Database Management:

MySql   **Sql**

Tools & Platforms:

Git   **GitHub**   **Visual Studio Code**   **NotePad++**   **Sublime Text**   **PhpMyAdmin**   **XAMPP**   **Composer**

NPM/NVM

Operating Systems:

Windows   **Ubuntu**

CERTIFICATION

Web Development Intern (1st July - 31st August 2024)

-> Gained hands-on experience in designing, developing, and maintaining web applications
using front-end technologies like HTML, CSS, Tailwind, and jQuery.
-> Worked with backend technologies including PHP, MySQL, and Laravel to build dynamic,
data-driven applications**.**
