PROFILE

Enthusiastic and detail-oriented Web Developer with experience in developing dynamic and responsive web applications. Currently working as a PHP Web Developer, contributing to scalable enterprise ERP solutions and service portals using PHP, Laravel, MySQL, JavaScript, and modern web technologies. Passionate about writing clean, efficient code and committed to continuous learning in the ever-evolving tech landscape. Seeking new opportunities to contribute to innovative projects, collaborate with forward-thinking teams, and deliver robust user experiences.

WORK EXPERIENCE

PHP Web Developer DNG Web Developer

02/2026 – Present

Ahmedabad, Gujarat

- Developed and maintained enterprise-grade ERP applications using Core PHP (MVC), MySQL, JavaScript, jQuery, Ajax, HTML5, CSS3, and Bootstrap.
- Built and enhanced modules for Accounting, Finance, Inventory, Purchase, Sales, Supplier Payments, Stock Management, Job Work, and Production Management.
- Integrated third-party REST APIs and payment solutions to streamline workflows and improve operational efficiency.
- Designed normalized MySQL databases, optimized complex SQL queries, and implemented business logic for high-performance applications.
- Developed dynamic dashboards, reports, and AJAX-driven interfaces to improve application responsiveness and user experience.
- Implemented secure authentication, role-based authorization, form validation, and session management to ensure application security.
- Resolved production issues, optimized existing features, and collaborated using Git/GitHub version control.

PHP-Laravel Developer (Project-Based) HotDealsTrip

08/2025 – 02/2026

Ahmedabad, Gujarat

- Developed a service-based web application using Laravel, PHP, and MySQL.
- Built a robust Admin Panel for managing agents, leads, documents, and service statuses.
- Implemented an Agent Leads Management system with tracking and status workflows.
- Integrated a secure Agent Wallet and Razorpay payment gateway with dynamic pricing.
